¹ Approximately 3.4% has been added to each project funding request for Ecology's administrative costs.

²The running total includes \$900,000 (plus 3.4% for administrative costs) in funding for Bonneville Environmental Foundation's (BEF) continued support of the Floodplains by Design program. As the primary NGO partner in this public-private partnership, BEF will provide statewide technical assistance, technical studies, and facilitation of public-private-tribal advisory groups related to implementing capital projects.

2027-2029 Floodplains by Design Grant Program Ranked List
